

For over 80 years, Shard Villa has cared for generations of seniors from families within our community and from more distant areas. We are a fully licensed, Level III Residential-Care Home.

Whether looking for a residential-care home for yourself or a loved one, we invite you to visit us. We may be exactly what you've been searching for—a cozy, comfy, caring, and welcoming home. A "B&B-Plus!"

Our residents have the full attention of a Staff that wants to be nowhere else. And, most important of all, the residents want to be nowhere else either.

We live our Mission:

“We create a safe, caring, supportive, and nurturing environment for the persons and families we serve so that they are fully respected for their uniqueness.

We encourage staff, and residents as well, to treat each other with dignity and kindness, and to respect each one's personal choices.”

Deb Choma, R.N.
Administrator

Shard Villa

VERMONT LICENSED LEVEL III RESIDENTIAL CARE HOME

**A Beautiful
Residential Care
Alternative in the Heart
of Vermont!**

Whether for yourself
or for a loved one,
we promise respect,
attentive care,
and a warm,
welcoming home.

1177 SHARD VILLA ROAD
SALISBURY, VT 05769

The Perfect Fit

We make every effort to get it right for each and every resident:

- Attentive, 24-hour care
- Medication supervision
- Daily activities & special exercise programs
- Home-cooked meals, with seasonal vegetables from our own garden
- All baking done on the premises
- A true homey environment
- Transportation for all medical appointments and off-premise activities

We strive to be not just homelike, but a *home*, and go to great lengths to avoid the loneliness and coldness of institutions. We believe firmly that people stay happier and healthier in a friendly setting.

Residents can bring their beloved pets (we've had many dogs, cats, birds and fish over the years!), meals are family-style, and the kitchen is always open for a late-night snack!

Respite & Post-Hospital Care

Shard Villa's services are available on a short-term, as-you-need-it basis for respite-care, or for post-hospital recuperation. Recuperative therapies, as specified by doctor orders, are arranged on premises.

Caring for a senior member of your family can be terribly stressful and as caregivers, we all need to be tuned in to our own health needs as well. Otherwise, it's nearly impossible to stay healthy. So, if you need a weekend, or several days, let us provide seamless respite care for your loved one.

Visit our website, ShardVilla.org, for additional information

The Villa

Residents make good use of the historic Villa's mansion parlours and dining area. Flowers and music surround us, and with Middlebury, Burlington, and Rutland so close, activity options are limited only by desire and energy! Residents have taken advantage of swimming, foliage tours, bowling, movies, theater, and many other off-site trips. At home, there are special activity and exercise programs planned on daily/weekly basis, gardening in the warm months, and other seasonal activities.

Meals are home-cooked, baked-goods made in our own kitchen. The garden provides fresh vegetables and flowers in season.

Bedrooms are sunny, with lovely views, include a private bathroom, and we will paint or wallpaper to suit.

Our Promise to You

Because we interact so closely with our residents, we are alert to the smallest change. You are assured that we will always be alert and attentive to every need.

We treat all our residents with loving care and respect for their individual abilities, interests, and quirks.

Family and prospective residents are encouraged to visit anytime; share a meal with us!
